## Coroner Blames Carbon Monoxide Poisoning In Death at Lake Villa

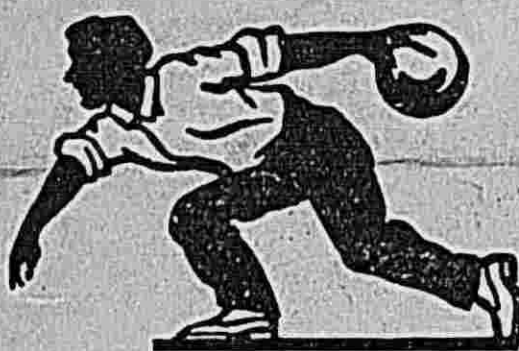

Coroner Gar Leaf said today that it was almost a certainty that Harvey Beardsley's death Saturday night at Venetian village, Lake Villa was due to carbon monoxide fumes from a war surplus heater. Leaf said that the findings in a post mortem examination proved almost beyond doubt that carbon monoxide poisoning was the cause of death, but the inquest would be delayed until a report on a sample of the dead man's blood could be received from a laboratory. The sample was sent to the lab in Chicago Monday.

Beardsley, who was 32 years of age, a resident of Round Lake Beach, had gone to the half finished cottage in Venetian Village to finish some concrete which had been poured Saturday. After leaving the job he and his brother-in-law Arthur Trusener had attended a party. Trusener found the body on Sunday morning. The men had been sub-contractors on the building.

The Antioch rescue squad was called when the body was found, but Beardsley was beyond help. The body was badly burned from the heater.

Leaf said that this particular type of heater was developed to warm airplane engines and produced a high speed stream of super-heated air. Since no provision for getting rid of the fumes is a part of the device, Leaf said that its use is extremely dangerous in closed places. The heater is equipped with a gasoline motor to run the fan, and this part of the machine also produces carbon monoxide.

Beardsley's body was removed to a Chicago funeral home where funeral services were held yesterday. Burial was in Memorial Park cemetery, Skokie highway.

Bowling

### Thursday Businessmen's League

High team for the night last Thursday was Keulman Bros., with games of 886, 978, 870 for a total of 2734. Ed Walters of Keulman's was high single scorer with a 616 on games of 192, 225, 199. George Keulman was second high with 579. John Waldweier had a 223 game.

### Wed. Night Businessmen's League

The Lake Villa Lumber Company team was high last Wednesday evening with 2455 series. High individual scorer was W. Lub of Nelson's Grill with 595 on games of 180, 213, 202. Lennie Armstrong had 538 for second high for the evening. Nelson's Grill had second high series of 2397.

### Ladies Major

Blums took three straight from Reeves Drug store with Louise Fernandez leading the way with 508. A. Kopriva was high for the druggists with 447.

Bussie's Bar managed to take two from Barnstable and Brogan. Helen Segelke shot high series for the night with games of 186, 175, 163, for a very good 524. Dorothy Ferris was high for the losers with 497.

The Stork took two from the Recreation with G. Osmond high for the winners with 469 and F. Miller tops for the Rec. with 432.

### Mump Cases Decrease As Predicted; Few New Cases Reported

As was predicted by Principal Richard Whitaker of Antioch grade school last week, cases of mumps which all but closed the school are rapidly decreasing this week. Many children who had been kept at home by the disease are returning to classes daily, and the reported new cases are few.

The eighth grade had only two cases still out of school this week and other upper grades are almost at full strength. Kindergarten and third grade are the hardest hit with the largest number absent. It is believed that the epidemic will be over by the end of this month.

### M. Y. F. LOSES GAME TO WAUKEGAN

In an overtime game played with the Waukegan First Methodist church, the M. Y. F. lost in basketball Wednesday evening 38 to 27. The game was played at the Antioch Township high school.

## Army Draft Held Up For Two Months

The Army announced this week that it will draft no men in February and March.

It cancelled an original call for 5,000 men in February. Army Secretary Royall said that "voluntary enlistments and reenlistments, averaging 35,000 a month for the past two months, have made selective service calls unnecessary for the next two months."

Noting that the selective service act requires the army to limit its draft calls to the difference between requirements and intake through voluntary enlistments, he said:

"As long as voluntary enlistments and reenlistments remain sufficient to maintain the strength of the army there will be no calls for inductions."

The air force and navy have not used the draft system.

## Scout Home Is Getting to Be A Busy Place

The Leila J. Anderson Memorial Scout home, is getting to be a beehive of activity, according to information furnished today by H. E. Cardiff, scout leader and custodian of the building.

According to Cardiff the schedule regularly calls for use of the building on Monday afternoons, by the Antioch Woman's club twice monthly, and weekly by the Metal Work class conducted by Asst. scout leader Jorgensen, of Rock Lake. On Monday evenings the Antioch Business and Professional Women's club meets once each month. Other meetings are scheduled on the Mondays when the hall is not in use.

Tuesday afternoons sees the regular meetings of the senior or high school girl scouts under the leadership of Mrs. K. F. Deitrick.

On Wednesdays the whole Boy Scout troop meets in the evening. On this night the whole building is in use, with Leonard Roblin to take 12 boys into a hobby class. On Wednesday also the regular girl scout troop meets in the afternoon under Leader Mrs. A. H. Kaufmann.

The newly-organized Brownies meet on Thursday afternoons, and the second weekly metal class is held in the basement. On Fridays no regular meetings are scheduled, but many meetings have taken place on Fridays and Saturday in the way of dances and other entertainments.

### Plan Card Parties

The senior group girl scouts have plans to sponsor a series of Saturday night card parties to help maintain the building, the date of the first still remains to be announced.

Antioch Unit of Home Bureau has made arrangements for use of the building on the second Wednesday evening of each month. This will mean shifting the regular scout night on that week, but Cardiff has made plans to have other activity on these nights.

## Antioch Lions Club Annual Ladies Night Monday Well Attended

The Antioch Lions club annual ladies night, held at Hank's on route 41, last Monday evening was well enjoyed by a large number of members and their ladies. A fine dinner was served, and a very good floor show was enjoyed, as well as dancing to superlative music furnished by Bob Morley and his orchestra.

The floor show consisted of six acts of headline vaudeville and was highlighted by The Johnstones in a magic act, which was very well received. Other acts included a dance team, a clever puppet act, a very hilarious bird act and songs and patter by a clever master of ceremonies. The show was furnished by the John Bensen agency of Chicago.

Officers for the coming year were introduced by Ed C. Jacobs, president for the past year. The party concluded the year for the 1948 officers.

## Graders Beat Grays-Lake Cagers Friday

The Antioch grade school basketball team took the Grayslake players down the line for two games last Friday evening. Both the first and second teams were victorious. The games were played before a good crowd at the Antioch high school gymnasium.

This Friday evening will see the locals traveling to Mundelein to tackle the grade school teams there. The school bus will be used to take the team and some of the rooters to the game.

## March of Dimes Campaign Will Start Jan. 14

The National Foundation for Infantile Paralysis has indicated that the 1949 drive which will start on January 14 will be the greatest ever. It reports that never before has there been so much interest on the part of citizens and that never before have the general people been so well informed as to the great need for funds to combat the dread disease.

Here in Antioch plans are well underway, under the leadership of Postmaster Roy I. Kufalk, to put Antioch over the top in the current drive. As in former years it is believed that both the Antioch theatre and the Lakes will run the trailers furnished by the Foundation and take up collections. Last year this method proved to be very effective with a total of almost \$300 collected for the Cause.

The coin collection boxes will be placed in all business places as in past years, also. Last year a special bowling match to benefit the drive was sponsored by Carl Gibson of the Antioch Recreation which helped to make up the \$1000 total reached. For this drive Gibson will try to get the "Gabby" Hartnett team here for a match with the Antioch Builders. The Hartnett team carries an average of 980 and is considered one of the best in the country. The Builders are currently bowling about a 950 average. Failing to book the Hartnett team, he will make arrangements to get some other team to meet the Builders for the drive.

One of the major features in the annual fund raising campaign was completed today with the mailing of March of Dimes cards to about 38,000 persons in Lake County, according to Kufalk.

Appealing to recipients of the cards to increase their contributions if possible, this year, the cards state that ravages of polio throughout the nation last summer, as well as soaring costs of care and treatment for those stricken, make this year's fund drive the most urgent in the history of the National Foundation and its chapters.

Antioch's response to the drive has been constantly better through the years with a total of \$573 collected in 1946; \$674 in 1947; and \$888 in 1948. Donations which went directly to the Foundation from the community were added to this latter total after the drive ended, bringing the Antioch total to \$1000.

## Saturday is Deadline For Payment of 1948 Estimated Income Tax

January 15, 1949 is a very important day to income tax payers. So it is advisable to take stock to see if anything is required of you personally.

January 15 is the due date for the final quarterly payment on Declarations of Estimated Tax for the calendar year 1948. Bills have been mailed, but if you have a payment due, it should be paid even though you have not received your bill.

January 15, 1949 is also the last day for filing an amended Estimate for 1948. If you find that your original estimate was too low and that you have underestimated your tax for 1948 by twenty percent or more, you should file an amended estimate to avoid a possible penalty.

Taxpayers, 80 per cent of whose income is from farming operations, must file their original Declarations of Estimated Tax for 1948 on or before January 15, 1949. If a farmer does not choose to file a Declaration he may file his final return on January 15 instead.

Any taxpayer whose original estimate is in need of correction may file his return on January 15 and thus avoid the necessity of amending his estimate.

If a final return is filed on January 15, the return must be accompanied by payment in full of the tax due on the return. In that case the fourth quarterly payment on the estimate need not be made.

You may pay cash, or by check, or money order. Checks and money orders should be made payable to "Collector of Internal Revenue". Do not send currency through the mail. Do not send one check in payment of several returns. Send separate checks for each return.

## Fred Peterson At Victory Memorial

Fred Petersen, genial Antioch police chief, is ill this week, and was taken to Victory Memorial hospital, Waukegan, on Tuesday. Fred's condition is not believed to be serious, but he has been hospitalized for observation of a recurring high temperature with no apparent cause. Mrs. Petersen will visit him today at the hospital.

## No. Shore Area Council Scouts Will Meet Here

The North Shore Executive Council which is the governing body of the Boy Scout organization for this part of the state, will hold its annual meeting here at the Scout home on Tuesday, January 18. The meeting will see about forty of the top Scout executives of the area in attendance and plans for the coming year will be made.

A dinner will be served by the High school girl scouts under the direction of their leader, Mrs. K. F. Deitrick.

### Home Receives Presents

Several fine presents in the line of furnishings for the home have been received during the week, among them a deluxe ping pong table, complete with paddles, net and balls. The table was the gift of Dr. A. N. Berke. It will be set up and available for use by youngsters or oldsters at any time.

Silverware for equipping the kitchen has been donated by Wm. Keulman of Keulman's Jewelry store. This was badly needed as none had been available at the scout home before this time.

Ed Sletten of the First National Bank has donated a number of books for the library and a small jig saw for the wood shop. Others have given motors, small tools and a drill press.

### Outside Troops To Camp

Permission was given the Deerfield troop Boy Scouts to use the grounds and the building for a weekend camp this weekend. A charge of \$10 per weekend has been set, and it is believed that a number of troops in the locality will avail themselves of the opportunity to use the home here.

## Lake Villa Trust and Savings Bank Holds Annual Meeting

With 196 shares being represented the annual meeting of the bank's stockholders was held on January 5th, and the following directors were elected: A. E. Bennett, L. A. Dixon, B. J. Hooper, Wm. M. Marks and E. K. Hart. A cash dividend of \$5.00 per share was paid to stockholders of record Dec. 15th and \$5,000.00 was transferred to Surplus, this being reflected within statement published elsewhere in this issue.

After the stockholder meeting the directors elected E. K. Hart, President-Cashier, Wm. M. Marks, Vice President and appointed W. F. Horenberger, Assistant Cashier to serve as officers for the current year.

## Auxiliary To Hear Talk on National Security Friday

A guest speaker who will deliver a talk on National Security will be the main attraction at the next meeting of the Antioch Legion Auxiliary, to be held at the Legion home Friday evening, January 14.

The Auxiliary has designated January as National Security and Legislative month and in line with this has adopted the slogan "National Security Today - National Peace Tomorrow." A program of study of pending legislation which affects veterans is being scrutinized by the members of the auxiliary and the national body will urge passage of all laws which are believed to be beneficial.

Mrs. Lucy Himens, president, invites all who are interested in these subjects to be present at the meeting, whether or not they are members.

## Sequoit VFW Will Hear Schedule for Year Monday Eve.

Members of the Sequoit post V. F. W. will have an opportunity to hear the schedule of all events set for the coming year at the regular meeting to be held Monday, January 17th at Guild hall.

A committee, headed by Willard Schneider, has been hard at work for several weeks to work out the proposed schedule and it will be presented to the membership for action at the meeting. Several entertainments have been proposed by the committee, to take place at various times during the year and committee appointments will be made at the meeting.

### Picture to Be Shown

After the business meeting a film, "Air Power Is Peace Power," will be shown, through the courtesy of Eastern Airlines, and stars its president, Eddie Rickenbacher. It gives an informative picture of the airplane and its part in both war and peace.

The movies will be shown at 9:30 and all who wish to see them are invited to come at this time.

## Sophia M. Steitz, 64, Is Taken by Death

Sophia M. Steitz, 64, mother of John Steitz of Steitz' Resort, Bluff Lake, passed away Tuesday, Jan. 11. Mrs. Steitz was born Jan. 6, 1885, in Austria.

Survivors are her son John; two daughters, Mrs. John Kristy and Miss Dorothea Steitz of Chicago, and one grandson. Her husband, J. L. Steitz preceded her in death several years ago.

Funeral services will be held Friday at 2 p. m. from the Strang funeral home, with the Rev. Wm. E. Strauser officiating. Interment will be in Grass Lake cemetery.

## Ice Fishing Good - Conservation Dept.

Reports from conservation officers in the field indicate that Ice Fishermen are out in large numbers. Bluegills are being caught in most of the lakes and channels in the Chicago area. Very good catches are reported. Numerous Northern Pike have been caught in the Chain O' Lakes, most in Fox and Grass Lakes. The ice is generally good but the warm weather weakened it in some of the channels.

The thickness of the ice averages about six to eight inches. Although the weather so far has not been severe enough for shelters, the Department of Conservation has ruled that fishermen can use portable-type shelters that give protection on all sides, if not more than five feet square.

The shelters must be taken off the ice each night. Last year's fishing licenses are good through January 31, department officials have reported.

## High School Juniors Cancel Dance Friday

The Junior class at Antioch high school, which had scheduled three public dances as a means of raising funds for Annual prom, announced today that the dance set for this Friday had been postponed and that no definite date had been set. Members of the committee said that the dances which had been run with recordings as music had not been doing so well, and that the postponement was to allow time to engage an orchestra for the next dance. The date will be announced.

## MariAnne's to Open In New Building on Friday, January 21

MariAnne's Dress Shop will hold open house in the new location, the Sommerville building formerly occupied by the A & P Store, on Friday, Jan. 21, at seven o'clock. The new store will combine the merchandise formerly sold at the downtown store in the Brogan building and the Lake street store, which will be closed. The store has been operated in the Brogan building since 1936, having been moved there after three years of business after opening in the Dibble building.

The new store will be completely modern in decor, with new fixtures throughout and will handle many new lines of merchandise, combining the stocks of both stores and featuring some new ones.

In the new store will be departments for children from the cradle to six years and one for older children from seven to fourteen; a foundation and lingerie department; the women's and misses' dress department will display dresses by such well-known makers as International, Hollywood Premiere casuals, Nelly Don, Georgiana, and others.

A new department will handle casual and house footwear of nationally known makes.

Mrs. Thomas Hunt, manager and owner of the store, said today that every effort would be made to increase the range of popular priced merchandise now in demand. She has also operated a MariAnne's shop in Libertyville since 1940.

## Kenosha Youth Drowns Saturday at Silver L. In Fall Through Ice

In the first fatal mishap during the winter season, Jerald Lloyd Roberts, route 2, Kenosha, Wisconsin, lost his life by drowning at Silver Lake Saturday afternoon. Roberts and a companion were driving on the ice at Silver Lake when the ice started to crack. The boys got out of the car and tried to run to safety, but had only gone a few feet when they broke through.

Fishermen who were close by rescued Edward Berndt, also of Kenosha, but were unable to save Roberts. His body was recovered Sunday by the Kenosha rescue squad.

Many s'milar accidents have been avoided here in Illinois, by the conservation department order which prohibits driving of cars onto the ice of the lakes. Before this edict was put into effect, it was customary for several persons to lose their lives in this manner each winter.

## Curfew For Round Lake Communities

Action by the board of trustees of Round Lake last week, seems to indicate that a curfew will be imposed in all three Round Lake communities, The Beach and the Park. Ordinances which will be uniform in all three municipalities are being prepared, and it is believed that the curfew will go into effect soon.

Acts of vandalism ranging from broken windows, broken streetlights, and other small thefts to burglary, have made this step, which may seem to be working an unnecessary hardship on children, mandatory.

## Legion Basketeers To Meet Silver Lake Here Next Monday, Jan. 17th

The local American Legion basketball team will play its first game here Monday at the Antioch High school gymnasium. The Antioch team has been holding regular sessions of practice and it is believed that they will put up a good fight against the Silver Lake team. Two games will be played, the curtain raiser beginning at 7:30.

Sammy Klass, manager of the local team, is still looking for games and any teams of surrounding towns who wish to meet the Antioch team may contact him by telephoning Antioch 53-R.

## Grade PTA To Hear Talk on Food, Mon.

Mrs. J. Heick will be the principal speaker at the meeting of the Antioch Grade school PTA Monday evening, January 17, at the Grade school. Her topic will be "Evolution of Foods." The meeting will start at 8 o'clock.

## The Quagmire of Too Much Government

One of the most difficult things to do in today's world is to separate causes from effects—to find the roots of the terrible problems the nations have brought upon themselves. It is the old story of being unable to see the forest because of the trees. Ever since the war ended, we have lived through one crisis after another, domestic and international. We have been plagued by fear one day and picked up by new hope the next. The whole world might be likened to mercury in a tube, shifting violently at any disturbance, and never attaining stability.

A thousand books could be written about the difficulties we are in, without touching more than the surface of the material. But, looking at the world from the best perspective we can now find, it seems clear that the basic problem, which underlies in one way or another all other problems, is this: The trouble is that it has too much government, too much absolute authority.

This is not a new situation, unique to our age. The whole history of civilization has been a conflict between the individual and those who wished to enslave him. That conflict has caused innumerable wars, revolutions, economic upheavals, all manner of disasters. But in the present world the technique of enslavement has been perfected. In some cases government maintains its power with the whip and the gun. In other cases it is far subtler—it increases and solidifies its authority through due process of law. But the end result is the same—a nation where all men have less and less freedom of action and deci-

sion, and where the political rulers determine more and more what we shall think and do.

Usually, we surrender rights to government for political promises of material gain. Government will give us wealth. Government will build us houses. Government will pay for our crops. Government will provide goods and services cheaper. Government will protect our health, and support us in old age. Government will deal with almost every obstacle that confronts us from the cradle to the grave. But before government can even attempt to give us these things, it must have the power to control the human and material resources of the nation, and take the savings of the people through taxes. And that is how dictatorships are built.

It seems, however, that government never delivers promised material benefits. The standard of living of any people goes down in ratio to the growth in power of those who rule. But, once government becomes strong enough, there is no recourse for the people short of revolution. The whole machinery of the state is used to keep the people in line, to destroy dissent, to make individuality a crime.

In today's world, the United States is in a position without precedent. The most obvious fact is that we are a mighty power from the material standpoint. We are making an effort which has no parallel in history to rehabilitate a score of devastated nations, and to save them from hunger and disease and despair.

This is vitally important, but it is not the end of the matter by a long shot. If American leadership proves to be purely material, it will be doomed to eventual failure—some of the police states are also rich in resources. What America must offer the world, along with her flood of goods, is the supreme example of the fact that a free people, with a free economic system and a representative government of their own choosing, can outdo the police states. Everything we have done or may do at home to weaken our tradition of individual freedom, to glorify government above the people who elect it, weakens our physical security, and our chance for survival.

This is a matter of spiritual values. We have no statistics with which to measure them, no production figures to make other peoples gasp in envy. But it is spiritual values which will turn the scales, one way or the other, in the long run. The real meaning of America is in the hearts of her people, and in the freedom and the dignity of all men.

That, then, is what we have to offer at a time when the world is divided into two camps without a common meeting ground. We cannot offer more. We must not offer less. We must check our own drift toward the totalitarian state where the government becomes supreme and where individual thrift, opportunity, industry, savings, and freedom are lost.

## MILLBURN

Rev. L. H. Messersmith will speak on "The Signs of the Times" at the regular church service at 11 o'clock Sunday, Jan. 16.

The Men's club met at the church Monday evening.

Millburn Unit of Home Bureau will meet at the home of Mrs. Edward Kidera on Grand Ave., Friday, Jan. 21. Mrs. Helen Volk, Co. Home Adviser, will talk on "Soup of This and Other Lands." Election of officers and other business will be transacted. Members are asked to remember donations for the silent Auction.

Rev. L. H. Messersmith is showing sound motion pictures in 8 local schools this week.

Charles Truax and son, Glenn, of Woodstock, were callers at the home of Mrs. Ida Truax Sunday.

Mrs. James Morris left for Louisville, Kentucky, Sunday, after two week's visit with her sister, Mrs. Webb Edwards.

Mr. and Mrs. Gus Christiansen and family, of Union Grove, spent Sunday afternoon at the Oscar Neahous home.

Many from Millburn attended funeral services for Mrs. Helen Cannon. Harmer at the Methodist church in Waukegan Monday at 2 p. m., with Dr. Thomas Pender officiating, assisted by Rev. Leslie Chapman. Burial was in Millburn cemetery. Mrs. Harmer, who was the daughter of the late Mr. and Mrs. Elmer N. Cannon, was born in Millburn March 7, 1898 and lived here until her marriage to Ray A. Harmer, Nov. 6, 1918, when they moved to Waukegan. In addition to her husband, she is survived by a daughter, Mrs. Edna Gatchell, of Waukegan, a son, Robert, of Wadsworth, her stepmother, Mrs. Emma Cannon, of Pasadena, Calif., three sisters, Mrs. Marjorie Wiese, of Libertyville, Mrs. Jessie Crockett, of Park Ridge, Mrs. Elma Anderson, of Pasadena, Calif., a brother, J. M. Cannon, of Waukegan, and three grandchildren. Although Mrs. Harmer had been in poor health for several years, her death was a great shock to her family and friends, as she was stricken while driving the car Friday afternoon and passed away that evening in St. Therese hospital, without regaining consciousness.

Miss Ruth Dretske, of Gurnee, spent the weekend with Joanne and Chloe Diedrich.

Mr. and Mrs. L. V. Ladwig and daughter, of Lake Villa, were callers at the home of Mrs. Ida Truax Sunday.

Rev. and Mrs. Messersmith and Mrs. Ora Davis were callers at the home of Rev. Lincoln Y. Reed, in Grayslake Monday afternoon.

Mr. and Mrs. Webb Edwards and niece, Nancy Morris, spent Monday in Maywood.

Mr. and Mrs. Earl Bauman were dinner guests at the home of Mr. and Mrs. Thomas Kearton, in Oak Park Saturday evening.

The regular meeting of the O. E. S. will be held at the hall Thursday evening.

Mr. and Mrs. O. L. Hollenbeck

and Mr. and Mrs. Pat Murphy called on relatives in Milwaukee Sunday afternoon.

Mesdames, Messner, Robbins, Neahous and Edwards enjoyed a sewing party at the home of Mrs. Carl Anderson Friday afternoon.

Mr. and Mrs. Howard Bonner and sons spent Sunday afternoon with Dr. and Mrs. W. G. Bauman, at Barrington.

Mrs. Howell Kenimer is laid up with a sprained ankle, suffered when she fell on the ice while skating.

Mr. and Mrs. George Murrie and family and Mrs. Daisy Webb were callers at the Frances Swenson home at Whitewater Sunday afternoon.

There was a very large attendance at the card party sponsored by the officers of Millburn O. E. S. Saturday evening. Forty-eight tables were played.

## WILMOT

Doris Pacey, of Kenosha, spent the weekend with her parents, Mr. and Mrs. Cyril Pacey.

Mr. and Mrs. Ervin Rasch and family, R. J. Austin spent Sunday with Mr. and Mrs. Norman Rasch of Sturtevant.

Mr. and Mrs. Herman G. Frank, Beverly and Richard, Bertha Harms and John Grabow spent Sunday afternoon at Kenosha with Mr. and Mrs. Joe Balza, to meet Oliver Balza, of Livingston, Montana.

Grace Carey spent Sunday with Mr. and Mrs. Wallace Dobyns, of McHenry.

Patsy Ehlert, of Oak Knoll, spent the weekend with Mr. and Mrs. John Ehlert.

Ida Swenson, of English Prairie, spent Sunday with Mr. and Mrs. Frank Zarnstorff, Sr.

Mrs. Herman Frank attended a household party Thursday afternoon at the home of Nellie Hasselman.

Bertha Harms and John Grabow, of English Prairie, were Sunday dinner guests of Mr. and Mrs. Herman Frank.

Mr. and Mrs. Walter Frank spent Sunday evening with Mr. and Mrs. Harry Paasch, of Pikeville.

Mrs. Gust Neuman spent Friday with Selma Jedele, of Kenosha.

Mr. and Mrs. Lyle Ehlert entertained forty-five relatives and friends at a farewell party in honor of Mr. and Mrs. Everett Siedschlag and family, who are moving to Columbia, South Carolina.

Mrs. Gust Neuman spent Tuesday with Mrs. Chester Paasch, of Channel Lake.

Mr. and Mrs. Frank Jahns were Sunday supper guests of Mr. and Mrs. Gust Neuman.

Mr. and Mrs. Cyril Pacey spent Thursday evening with Mr. and Mrs. Roy Haller, of Kenosha.

Capitol at Boise

Idaho's state capitol building at Boise is unique in having its own water supply from three artesian wells.

## HICKORY

Mr. and Mrs. E. W. King entertained for dinner on Sunday, Mr. and Mrs. R. C. Bishop, Mrs. Georgia Seoville and Miss Grace Tillotson, from Kenosha, Mr. and Mrs. William Hallada, from Port Washington, Wis., and Mr. and Mrs. Harrie Tillotson.

Mr. and Mrs. Bob Thomey and son, Billy, from Kenosha, called at Fred Leable home Sunday afternoon.

Mr. and Mrs. Nathan Phillips and family returned Saturday from a three week's vacation spent with relatives in Largo, Florida.

Mrs. S. W. Ames and daughter, Mrs. Lloyd Norwood and her daughter, Linda, of Gurnee, were Friday afternoon callers at H. A. Tillotson home. Mrs. William Hallada returned home with them and was a supper guest of Mrs. Norwood.

Mr. and Mrs. Curtis Wells and Miss Shirley and Warren and Richard were Sunday dinner guests at the home of Mr. and Mrs. Raymond Wells in Antioch. Other guests were Mr. and Mrs. Russell Edwards, of Waukegan.

Mr. and Mrs. Claude Hogan, of Skokie, were Sunday afternoon callers at the Earle Crawford home.

William Hallada, of Port Washington, was a weekend guest at H. A. Tillotson home. Mrs. William Hallada, who has been visiting her

folks since Christmas returned home with him Sunday evening.

Harold and Norman Edwards and their sister, Mrs. Robert Taylor, drove to Champaign on business last Saturday.

Mr. and Mrs. Fred Leable were supper guests at the Bob Alverson home near Kenosha, on Sunday in honor of Barbara Ann's eleventh birthday anniversary.

Mr. and Mrs. Curtis Wells called at the Savage home in Millburn Wednesday evening.

Several friends and relatives from here called at the Marsh Funeral home in Waukegan Sunday p. m. and attended the funeral of Mrs. Ray Harmer at Waukegan on Monday afternoon.

Mrs. Clarence Crawford, Mrs. Walter Czymmer and daughter, Marion, of Kenosha road, were Thursday afternoon callers at the Earle Crawford home.

## Grand Canyon Village

One of the world's strangest locations for a settlement is at the bottom of Grand Canyon where the Indian community of Supai, Ariz., is located. A helicopter delivered parts for a quonset hut used as a church there. The community post office is one of the few to which United States mail is delivered by horse and mule.

## In Case of Fire

Always be prepared for fire. When entering buildings, choose your nearest exit and alternate path of escape. Locked or obstructed exits or fire hazards should be reported. If burned in a fire, report for medical treatment. Many burns or smoke inhalations which do not at first seem serious have fatal results.

## Lime on the Farm

Lime has two main functions on the farm. (1) It corrects the acid and alkaline needs of the soil. (2) It supplies plant food and brings about many secondary effects which affect the growth of plants such as the immobilization of toxic substances and the increase in availability of plant nutrients. The practice of liming was known before the Christian era.

## Storage of Dahlias

A cellar that will keep potatoes in good condition is a good place to store dahlias tubers. Dahlia storage needs a rather high humidity and temperatures of 40 to 50 are desirable. Many place them in shallow boxes and cover them with sand and then place in cool storage.

## Uncle Sam Says

This Christmas, join the Payroll Savings Plan where you work and start your regular, automatic purchase of U. S. Savings Bonds. Or, if self-employed, join the Bond-a-Month plan where you bank. You should start filling those 1948 Christmas stockings now, so that ten Christmases from now you can fill your whole family's stockings, including your own. And you will be facing the future with security and confidence. U. S. Savings Bonds will open the door to future security and happiness.

New Power Quick!

IN 24 HOURS WE CAN PUT THIS ALL-NEW FIREBALL IN YOUR BUICK!

Here is new car WHOOSH you won't have to wait for—a pulse of power right off the production line.

If your Buick is a 1937 model or later, bring it in to our service department. In less than 2 days, we'll lift out the old engine and put this latest, liveliest Fireball in its place. It's all new, from

carburetor to clutch—tested and tuned. The cost is surprisingly low—just about what you'd pay for a "reborn job," with a few parts replaced. Time payments will hold it down to a few dollars a month.

Drive in this week—and let us quote you the exact figure!

Lakeland Buick Co.

Nippersink Blvd.

Fox Lake, Ill.

**Texas Gaining Industry Fast**  
Houston, Tex., is the center of the nation's fastest growing industrial area. There, in 1948-49, more than 80 million dollars was invested in plants as against 69 million in the New York area. On a per capita basis this amounts to \$106 against \$5.40 for New York and \$14 for Los Angeles, according to Pathfinder.

**Baby's Eyes**  
Although attending physicians will discover any eye abnormality in a baby during treatment after birth, parents should be alert to notice troubles that may develop thereafter. Abnormalities to be looked for include inequality in the size of pupils, cloudiness, discoloration, or deviation from the regular round shape of a pupil.

**Protecting Trees From Rabbits**  
Rabbits can cause severe damage to trees. A common repellent is lime sulphur. To prepare the material, mix dry lime sulphur in sufficient water to make a thin paint. It can be applied with a brush or rag swab on a stick and it can be sprayed on.

**Baking Utensils**  
In selecting roasting and baking utensils, look for materials sturdy enough not to warp when exposed to high oven temperature. Few seams, smooth edges, and rounded corners all make cleaning easier. Whenever possible, select utensils which can be used for both range top and oven cooking.

**Care of Horses**  
Horses should receive a massage after hard work.

# SOCIETY EVENTS

## Baha'i Fireside Meeting, Matthisen Home Fri. Eve.

"Nearness To God" will be the topic for discussion at the Baha'i Fireside meeting at the A. F. Matthisen home Friday evening at 8:30. The Matthisen home is on highway "V" on the north side of the road that runs east and west past Lake Shangri-la. Look for the light shining in the yard to welcome all those who wish to know something of the Teachings of the Universal Baha'i Faith. A social hour of music and refreshments follows the discussion period.

"The Greatest Attainment in the world of humanity is Nearness to God."

## MRS. R. MEISSNER TO ENTERTAIN ANTIOCH WOMAN'S CLUB

Mrs. Robert Meissner, well-known for her dramatic work, will entertain with "Dramatic Interpretations" before the Antioch Woman's club at a meeting to be held at the Scout home Monday afternoon, Jan. 17. There will be a Welcome to New Members. Hostesses for the afternoon are Mesdames J. Kopriva, D. Stowe, George Good, Fred Peterson and W. C. Petty.

## YVONNE PETERSON TO PRESENT OPERETTA BENEFIT V. F. W. & AUX.

Miss Yvonne Peterson will present an Operetta, "Rescue of Princess Rosebud," featuring singing, dancing and dramatics by children of the vicinity. Ages ranging from two years through high school, Saturday evening, Jan. 22, at 8 p. m. at the Antioch Township high school. Benefit of V. F. W. and its Auxiliary. Tickets will be available January 15 from members of the post and auxiliary and will also be sold at the door.

## MRS. NIX HOSTESS TO PINOCCHLE CLUB.

Mrs. Victor Nix, of Long Lake, was hostess to the members of her pinocchle club at her home recently. Mesdames Elsa Kierschke, Dorothy Franchi, Ida Shunneson and Minnie Smith were awarded card prizes. Mrs. Anna Gross was awarded the double pinocchle card prize. A delicious buffet lunch was served by the hostess following the games.

Miss Jean Pagels, daughter of Mr. and Mrs. Al Pagels of Grass Lake Road, returned to her studies at Illinois State Normal recently after spending the holidays with her parents and other relatives and friends.

## METHODIST MEN TO ATTEND MEET AT LAKE FOREST

At least a dozen men from the Antioch Methodist church are expected to attend the first annual men's get-together banquet of the Chicago Northern District Methodist churches on next Thursday, Jan. 20. Methodist men from 20 north suburban Methodist churches will meet at the luxurious Durand Commons on the south campus of Lake Forest College in Lake Forest at 7 p. m. M. C. Cain, lay leader, is making the arrangements.

The evening program is one of social fellowship and entertainment aimed at better acquainting the men with other churchmen and their activities. The men of Grace Methodist church of Lake Bluff will be the host club, and a ham dinner is being served by the college.

M. C. Cain, Methodist lay leader, and Alonzo Runyard attended the annual Laymen's meeting in Rockford this past Saturday as representatives of the Antioch Methodist church.

The Senior MYF group was scheduled to hold a party at the Methodist parsonage on Thursday evening. Janice Runyard is president of the group. She and Virginia Petersen were planning the refreshments. Paul Biel is in charge of the recreation and games. The MYF girls' basketball team defeated Wesley Church on Tuesday evening 24 to 12. The game was played at North Prairie.

Mrs. George Good and Mrs. Alonzo Runyard were elected delegate and alternate respectively to represent the Antioch Methodist church on the Church Federation of Greater Chicago.

Frank Petty, Los Angeles, Calif., is spending a two weeks' vacation with his parents, Mr. and Mrs. W. C. Petty. Frank is employed as reporter for the Los Angeles Examiner. Other guests at the Petty home for the week-end were Mr. and Mrs. Paul Richey, of Hammond, Ind.

Mr. and Mrs. Charles Cermak, Jr., and Mr. and Mrs. Vern Rogers attended the inauguration of Governor Stevenson of Illinois and also attended the grand ball at Springfield this week.

Mrs. Arthur Rosenfeldt was hostess to the members of her five hundred club recently. Two tables of five hundred were in play. Card prizes were awarded to Mesdames Mike Golden, Frank Dibble and William Rosing.

The Woman's Society of the Methodist church will hold its regular meeting January 19, in the church dining rooms. The meeting will be called at 2 p. m., with Mrs. Louis Biel leading the devotions. Miss Dorothy Ferris will talk on her recent travels through sixteen states. Mrs. Clara Westlake and her January Circle have charge of the program.

### METHODIST YOUTH TO LEARN OF CHINA

"China Hello" will be the theme for the three Methodist Youth Fellowships at the Methodist church in Antioch Sunday at 4:30. Co-operating with 40 other Protestant denominations, the young people will take a look at China, using material prepared for the use of all churches.

The program this Sunday will include attractively arranged displays, discussions within each of the three MYF groups about the country, the history, and the people of China, as well as a special Chinese game. Each young person is asked to bring his or her own chop-sticks which they are to make for the occasion.

The worship service will be entitled, "He Hath Made of One Blood." It will be led by the members of the Senior MYF. The intermediates will be in charge of the special Chinese game, and the Young People's group will plan the decorations.

Mr. and Mrs. F. A. Swenson, of Little Silver Lake, were dinner guests of Mr. and Mrs. Ben Miller Sunday.

## Mary Ellis Heads Rebekah Lodge

Antioch Rebekah Lodge held its installation of 1949 officers recently at the I. O. O. F. Hall. Mrs. Mary Ellis was installed as Noble Grand and Maud Johnson as Vice Grand. Other officers installed were Clara Horton, recording secretary; Mary Runyard, financial secretary; Edna Drom, treasurer; Anna McNally, warden; Clara Wilton, conductor; Eva Burnette, chaplain; Deborah Van Patten, musician; Lillian Hand and Rena Clark, right and left supporters to the Noble Grand; Mrs. Fred Wertz and Tillie Miller, right and left supporters to the vice Grand; Olive Tweed, inside guardian and Olive Palmer, outside guardian.

The installing officers were Lillian Hand, deputy president; Goldie Stillson, vice deputy president and installing chaplain; Catherine Dible, recording secretary; Jesse Runyard, deputy treasurer; Nelson Drom, deputy marshal.

Following the installation a lunch was served by the hostesses. Mrs. Grace Baisrow, treasurer of the State Assembly, will hold a school of instruction at the I. O. O. F. hall January 19.

Plan Public Card Party  
A pot luck supper and card party will be held in the I. O. O. F. hall Monday evening, Jan. 31, the public is invited to attend.

## THE LAKELAND PLAYERS HOLD MEETING

A social meeting of the Lakeland Players, Inc., was held Friday evening at the home of Harold S. Nelson. A lengthy discussion was held on a forthcoming play. Announcement will be made shortly to the public. At the last business meeting election of officers was held. Newly elected officers are Wendell S. Nelson, president; Harold S. Nelson, 1st vice president; Bette Meyer, 2nd vice president; Robert Lindblad, treasurer and Dorothy Lindblad, secretary. Any persons interested in dramatics, any phase of the theatre, are invited to attend a social meeting to acquaint themselves with the group.

## MR. AND MRS. MORTON PARENTS OF SON

Mr. and Mrs. Ray Morton are the parents of a son "Scott Ray", born Sunday, Jan. 9, at St. Therese hospital.

## JOHANNA COBB TO HEAD RAINBOW GIRLS

Miss Johanna Cobb was elected to the office of Worthy Advisor at a regular meeting of the Order of Rainbow for Girls Monday evening. Other officers chosen were, June Peterson, worthy associate; Betty Jean McDougall, charity; Betty Terry, Hope; Jean Harden, Faith; June Hunter, Treasurer and Patricia Anderson, recorder. Elsie Farnsworth, the out-going recorder was presented with a gift from the Assembly. Misses Jane Runyard, June Hunter, Judy and Joline Gaston served as hostesses for the evening.

## MR. AND MRS. ANDERSON PARENTS OF DAUGHTER

Mr. and Mrs. Gorum Anderson are the parents of a daughter, "Barbara Lee" born January 10 at Victory Memorial hospital.

## PARENTS OF DAUGHTER

Born to Mr. and Mrs. William Banett a baby daughter, born Jan. 8, at St. Therese hospital. Mother and babe have returned home and are doing fine.

## Library Notes

The patrons of the Antioch Township Library read almost 3,000 more books and magazines in 1948 than in 1947, with the most marked increase in children's non-fiction and in magazines and periodicals. There is a reason for the increased circulation in these two fields. Believing that assistance to children in the first 4 grades of school in learning to read is of great importance, the library has added close to 100 readers to its shelves. These have proved very popular with both teachers and young readers. The increase in withdrawal of magazines is due to the increased efficiency of the Reader's Guide offers in locating articles in back number magazines for students.

Fiction books, as is customary, are three times as popular as nonfiction with both adults and children. Of the 23,994 books circulated in 1948, well over half were withdrawn by the adult members of the 1643 registered borrowers. They borrowed 13,080 books and most of the 645 magazines circulated while the children borrowed 10,269 books.

The reading table, stocked with current magazines, continues to be well patronized. The viewmaster, donated in memory of Mr. Hillebrand, have been so much in use that two new instruments and 24 new reels have been added to the library's collection.

Mr. and Mrs. William Topel and baby son, Bobbie, of Waukegan, were dinner guests of Mr. and Mrs. Arthur Rosenfeldt Tuesday.

## PARENTS OF DAUGHTER

Mr. and Mrs. Frank Moser are the parents of a daughter, "Christie Ann", born Saturday, January 8, at Victory Memorial hospital. "Shortie" is a very proud papa, the Mosers have a 2 year old son, Frankie.

## ANTIOCH WOMEN VISIT DOWNEY HOSPITAL

Mesdames Ed Knickelbein, Warren Edwards, Nellie Hanke, Sheridan Burnette, L. J. Zimmerman, William Hallwas, Myra Randall, all members of Sequoit Unit of Veterans of Foreign Wars Auxiliary accompanied by Miss Yvonne Peterson and Mrs. M. J. Weinzimmer, of Petite Lake, entertained at Downey Veterans hospital.

Wards 7-B and 8-B were entertained with singing and dancing and were treated to cigarettes, fruit cake, nuts and candy.

Mrs. John Horan, Tenth District Director and Mrs. Frank Kennedy, Tenth District Secretary, of the American Legion Auxiliary, attended the initiation of new members into the Highland Park Unit of Auxiliary last Thursday evening.

## Mrs. Lillian Rotnour, of Elgin, is the guest of her daughter, Mrs. V. B. Felter, and family this week.

Pheasant Needs Coddling  
Pheasants thrive in captivity, but are more demanding than poultry.

## YOUR INCOME TAX

by  
John T. Jarecki, Collector of Internal Revenue for the First District of Illinois

### ARTICLE NO. 4

Personal Exemptions  
The Revenue Act of 1948, which will be applicable to income tax returns for the calendar year 1948, provides new exemptions.

The exemption allowed to each taxpayer is increased from \$500.00 to \$600.00. An additional exemption of \$600.00 is allowed for the taxpayer's spouse, if the spouse has no gross income and is not the dependent of another person.

The exemption allowed for each dependent is also increased from \$500.00 to \$600.00. The tests for dependency are the same as under the prior law, i.e.

1. He or she received over one half of his or her entire support from you in 1948.

2. He or she was closely related to you.

3. He or she did not have \$500.00 or more gross income of his or her own in 1948.

4. He or she, if married, did not file a joint return with his or her spouse.

5. He or she was a citizen of the U. S., or a resident of the U. S., Canada or Mexico.

Each taxpayer who has attained the age of 65 years before the end of the year will be allowed an additional exemption of \$600.00. This additional exemption is treated in the same manner as the ordinary exemption. A married taxpayer can take the old age exemption of his spouse on his separate return, if she has no gross income and is not the dependent of another taxpayer.

A further exemption of \$600.00 is allowed to each blind taxpayer, who is blind at the close of the taxable year. A taxpayer may also claim an additional exemption of \$600.00 for a blind spouse. This blind exemption replaces the deduction of \$500.00 allowed each blind taxpayer under the prior law.

The same rules govern the allowance of the old age exemption and the blind exemption for a spouse as govern the allowance of the ordinary exemption for a spouse.

It is to be noted that the old age exemption and the blind exemption do not apply to dependents but to a husband or wife only. Thus a taxpayer who is supporting a relative who is over 65 years old or blind is still entitled to only one \$600.00 exemption for the dependent. While the exemption for each dependent has been increased to \$600.00, the test for dependency remains at \$500, and no exemption may be claimed for a dependent whose gross income for the year is \$500.00 or more.

## Water for Cows

Records show that dairy cows will show an increase in milk production of from five to 10 per cent when water is available to them at all times.

# WE DELIVER

MONEY MAKER

# Mechanic Has Mint

WASHINGTON, D. C. — During the depression, when a man could barely buy sowbelly and shoe leather on what he made fixing old cars, something happened—by accident—to Verne Starling, a mechanic, out in Perry, Iowa. The accident made him think he could do better by making real money.

"I didn't want to get rich," he later told the United States secret service. "I just wanted to make a decent living."

Like all easy money guys, Starling made a mistake now and then. One of them—a phony half dollar—is now on exhibit in the treasury building. How it got there is an interesting story dug from the fat files of James J. Maloney, chief of the secret service. Mechanic Starling, in his confession, told his own story:

Once, in 1933, he was fiddling around with an acetylene torch, fixing to weld a truck axle. He reached in his pants pocket for a cigarette and out tumbled a nickel, which came to rest between a spring and a railroad iron on the floor.

## He Gets an Idea.

A light went on in Starling's active brain. He forgot about the broken axle and placed the nickel on the railroad iron and applied his torch to the flat piece of spring. When it sizzled cherry red he took his tongs and put the spring on top of the nickel and let fly with a heavy sledge.

A perfect imprint of a nickel! And from where Starling stood, the garage business looked pretty dull. So he began to study up on dies and knurling wheels, the things that make the ridges around some coins. It took a lot of time, but he was a perfectionist.

At length he came up with a near perfect duplicate of the 1912 Columbia star half dollar, although it took him almost four years.

To look at the official record you'd think Starling was out of his head. He put 22 cents worth of silver in each coin at a time when the government was only putting 18 cents worth in each.

"But at that, the guy made dough," Jim Maloney said. "A couple or three cents worth of copper, iron and tin pitched in as alloys and he had a nice profit. And he also had us humpin' for a long time."

## Coins Look Real.

The coins looked and acted like the real thing to most people. But they showed up bad under the eyes of examiners at the federal reserve banks.

He finally was traced, as most coin counterfeiters are, through his purchases of silver. That, plus asking neighborhood kids to help him steal silver around Perry. He even suggested raiding the trophy cases in high schools for loving cups that Iowa athletes had won in basketball games and track meets.

One rainy night the law—federal, county and local—moved in.

The culprit said in his statement that he was a lone worker. He'd go into dime stores, groceries and cigar stores around Iowa, spending a nickel and getting 45 cents change. In a closet in his home the agents found sacks of Bull Durham, squares of eating tobacco and gum. Starling said he turned out no more than 300 half buck pieces a month—value \$150, minus expenses.

But, as the man said, crime doesn't pay. The government chopped Starling's elaborate equipment to junk and sold it by the pound at auction—for \$2.60. And he died in jail while awaiting trial.

## Typist's Error During War Cost British Two Ships

LONDON. — A typist's error was blamed for the loss of two British destroyers in the battle of Crete during the early phases of World War II.

It was disclosed in newly released admiralty dispatches of that battle from Adm. Sir Andrew B. Cunningham, then in charge of Mediterranean operations, now Lord Cunningham of Hyndhope.

He explained that on the night of May 22, 1941, he received a "most immediate" message reporting the battleships Queen Elizabeth and Barham were "empty" of anti-aircraft ammunition.

The message should have read the two battle wagons had "plenty."

As a result, the two ships were ordered back to Alexandria, leaving behind the destroyers Kelly and Kashmir, presumably to protect their withdrawal against the Germans.

Both were sunk.

## Meager Diet Is Leaving Mark On British, Experts Declare

LONDON.—Sir Jack Drummond, diet expert, says serious signs of malnutrition have begun to appear among British children and adolescents as a result of bread and potato rationing.

"The body weight records of adolescents are rather disturbing," he wrote in the Medical Journal. "Failure to gain weight and actual loss of weight are not uncommon among boys and girls."

Adolescents need from 3,500 to 4,500 calories daily, he said. The present British diet totals about 2,700 calories.

## Phone

Prankster Has Fun

ROCKFORD, ILL.—A telephone prankster kept Rockford's police department busy when he placed orders with seven business firms for a harassed citizen.

The householder found an undertaker at his door waiting for a corpse. Two painters arrived to paint the house. Sixteen cases of soft drinks were left on his porch. A city water department employee arrived to check the water pressure.

A lumber company delivered a ton of coke. A landscaping firm arrived with a load of dirt and at 6:15 a. m., a sanitary district truck showed up with a load of fertilizer.

## Lonely Dog Remains Faithful to Owner Who Abandoned Him

EVERY, NEBR.—Another of the countless tales of a dog's loyalty to his master is being told near this small Nebraska town south of Omaha.

In this case the dog's loyalty seems misplaced. He is faithful to an unfaithful master.

Every evening about 5 p. m. the yellow and white dog sits waiting at the edge of the highway, watching cars speed past. When a car slows down or stops, as some of the hundreds passing occasionally do, the dog perks up his ears and wags his tail in anticipation.

When the passer-by dismounts, the ears droop and the dog retreats into the corn field.

The story behind the dog's wait was told by a nearby resident, T. A. Neal.

Neal said that a car stopped where the dog now keeps his vigil. The car door opened and the dog bounded out. A man followed, placed some food on the ground, then hurried away.

Ever since the dog has waited for his owner's return. The deserted animal spends most of his time within 300 feet of the spot, leaving occasionally to hunt for food.

Neal and other neighbors toss out scraps for him, but none has been able to approach him. Neal would like to adopt the dog, but he can't get near.

The dog just keeps sitting by the side of the road, watching the cars roll by and waiting patiently.

## Chemist Discounts Popular Theories About Food Uses

ALLENTOWN, PA.—These theories about food are "nonsense," says Prof. Albert P. Sy of the University of Buffalo chemistry department.

That only one food should be eaten at a meal; that only raw foods should be eaten; that onions are good medicine for the liver; that lettuce helps against insomnia; that garlic is good in cases of hardening of the arteries; that spinach is good for muscles.

Further nonsense, he adds, are the beliefs that there are such things as brain food, hair food, skin food and eye strengtheners, or that certain foods can determine the sex of unborn babies.

"Overweight," he told an American Chemical society meeting, "is almost always due to overeating, and good digestion and good metabolism. Sooner or later overeating must be stopped, and if it isn't done sooner there won't be any later. External applications are useless, totally. Exercise increases appetite and weight. Massage is a waste of effort. All drugs and remedies are dangerous."

## Judge Fines Farmer \$50 for Not Sending Son to School

THREE RIVERS, MICH. — An Amish farmer, who served part of a 60-day jail term rather than send his son to high school, was freed after paying a \$50 fine.

But he may be arrested again with three other members of his sect unless they submit to an order to send their sons to school.

The farmer, Sam Bontrager, was arrested when he ignored a notice that his son, Reuben, 14, must attend high school.

"I've been a farmer and Reuben will be one, too," he said. "I never bothered about school and I don't think Reuben has to."

Given a choice of paying a \$50 fine or serving 60 days in jail, Bontrager at first chose to go to jail. After staying two days, however, he paid the fine and was released.

Justice J. L. Van Selous said that three other Amish farmers have received notices similar to the one sent Bontrager.

## Germany to Handle All Radio Messages From Reich to U. S.

BERLIN.—Equipped for the first time with radioteletype, the German post office (Deutsche Post) now handles all radioteletype messages between Germany and the United States, including those from and to the occupying forces.

Only Press Wireless, Inc., will remain here to handle American press, radio and radiophoto traffic.

The Deutsche Post will receive from and transmit to New York from its radio station in Frankfurt-on-Main. Two-way radioteletype service between those points recently was installed.

## LIVESTOCK HEALTH ODDITIES

### Trouble

Is This Boy's Hobby

ELLAVILLE, GA.—Mr. and Mrs. L. T. Phillips are very much worried about their 12-year-old son, Royce.

When Royce was 4 he swallowed enough poison, his parents said, to kill 15 men and was saved only by prompt use of a stomach pump.

A year later he drank kerosene and had a close call with pneumonia. That was just before he was kicked in the head by a mule.

Royce is now recovering from a fall out of a pecan tree, in which he broke both arms.

### Perfumes Which Make Men Fall in Love Are Nonexistent

CHICAGO. — There's nothing to worry about, men. Perfume can't trap a man against his will.

Maurice Talmadge, who has been concocting devastating whiffs for 25 years, made the admission.

"We've been trying for years and years to develop a perfume that will make men fall in love at first sniff," he said, "but our best efforts have been in vain."

Talmadge suggested delicately that one of the major stumbling blocks has been the fact that modern males just don't have a good sense of smell.

Even the most tantalizing aroma is powerless, he said, unless a man is more than casually interested in a girl, in the first place. At best, perfumes just rate an assist in romance, he said.

Women have been dabbling themselves with perfume ever since Cleopatra wore 16 scented oils in her hair. They spend millions for perfumes in the United States every year, Talmadge said.

"Women buy perfumes to make themselves attractive to men," Talmadge said. "But the funny thing is they're so interested in pretty bottles and exotic names they're rarely aware of how attractive or unattractive a perfume actually may be."

Putting it bluntly, Talmadge declared women know little about perfumes and men a great deal less. There isn't one woman in a thousand who can tell the difference between her favorite perfume and another similar brand, he said.

### Officer Dreams of Stowaway Aboard Ship; Nabs Veteran

SYDNEY, AUSTRALIA.—A former United States soldier who stowed away on a ship bound for Australia was caught in sight of his goal because a ship's officer had a startlingly accurate dream.

Chief Purser R. T. Heydon awoke about 3 a. m., when the Matson liner Marine Phoenix was about 20 miles out of Sydney. He had dreamed that a stowaway was hiding in the ship's reading room.

Heydon at once went to the reading room. The first person he saw there was Robert L. Joyce of San Francisco, who had traveled across the Pacific without being caught.

Joyce had obtained official clearance to immigrate to Australia, but could not finance the trip even with government help. So he stowed away and nearly got away with it—eaten most of his meals in the dining room without being questioned. He slept in obscure corners of public rooms on the ship.

His papers were in order, and the immigration department will admit him to Australia—if Matson line officials will agree to cut their loss and let him leave the ship.

### Anthropologists Blame Flattened Head on Cradle

PHILADELPHIA.—The way babies are cradled may explain the strange head shape among some people in Balkan countries. Their heads are very round and often show flattening at the back.

Anthropologists thought they belonged to a particular race, and gave them a name, Dinarsics. It was thought that their flattened heads resulted from inter-breeding of long-headed and short-headed peoples.

But this may not be the reason for the head flattening. Dr. Robert W. Ehrlich of Brooklyn college and Dr. Carleton S. Coon of Harvard report in the American Journal of Physical Anthropology. The head flattening may result from local methods of cradling a baby.

They point to some other people, from the Near East, who also have round and sometimes flattened heads. When they migrated to America and gave up their old custom of cradling babies, the children grew up to have longer heads.

### Coast Guard Reveals Beam 'Wavering' at Air Crash Site

KETCHIKAN, ALASKA. — The coast guard revealed that the radio beam on Annette island, where a Pan-American DC-4 crash took 14 lives, was found to be "wavering" on the day after the crash.

Neither the coast guard nor the civil aeronautics authority would comment on the possibility of the beam having been "wavering" on the day of the crash. The Pan-American Clipper plowed into Tanager mountain apparently while attempting to land at Annette island during a storm.

### POULTRY TRICKS

## Special Eggs Hold Letters

NEW BRUNSWICK, N. J.—If you have trouble paying bills, you might send the boss an egg with a message inside asking for a raise.

Boil the egg, so he won't have a messy time reading the message. The novelty might win him over, even if the stunt only proves how smart chickens and poultrymen are these days.

The message inside an egg requires a simple operation on a hen. The message is put inside a capsule, which is placed in the chicken's oviduct. The chicken obligingly builds a perfect egg around the message. The process is timed so that poultrymen know when the egg will be laid.

If the boss turns you down, you can get revenge. Steal his breakfast appetite by presenting him eggs that have green, black or bright red yolks. Poultry experts can arrange this by feeding dyes to hens.

Science Learns Tricks. These tricks science has picked up during years of work. Some of the experts know eggs so well that just by opening one and looking at it, they can tell you what part of the country the chicken lived in.

Chickens are being bred that produce more nutritious eggs than 20 years ago. A hen's egg production has been increased by more than 50 per cent. Scientists are producing breeds of chicken that give more meat.

Some advances were outlined by men attending an egg grading and marketing school at the New Jersey agricultural experiment station. Diets have been worked out to put more vitamins and minerals in scrambled, boiled, poached or fried eggs.

Diet controls the color of the yolk. It will be almost white without a pigment in green feeds and yellow corn. It can be made dark orange with plenty of such food. Calcium makes strong eggshells.

Public Is Prejudiced. One thing experts have trouble overcoming is public prejudice. In Boston, many people prefer brown eggs and pay more for them. In New York, money can be saved by buying brown eggs.

Nutritionally, there is no difference between them. The preference started years ago when it was hard to ship eggs without losing quality. In New England, brown eggs meant home laid ones and white eggs were shipped in. The opposite was true in New York, where people became accustomed to expecting better quality in white eggs.

Grade A eggs can be used for anything. Grade C, when poached or sometimes when fried, go to pieces.

One inventor is putting out square eggs. He breaks them into individual, square plastic cells. It saves space in packing and shipping.

### Millionaire Rag Picker Cries 'Help' Once Too Often

PARIS, FRANCE.—Neighbors said that Mme. Henri Humbertis, the "millionaire rag picker of Paris," had "cried wolf once too often."

Mme. Humbertis, 70, lived in a dilapidated house for 50 years, hoarding the money she earned digging through rubbish cans.

When the shadows in the creaking old house disturbed her, she would hobble through her garden, screaming for help.

"It's all right, Mme. Humbertis—go back to bed," neighbors would call.

One night she screamed again. She got the usual answers.

When dawn came, neighbors noticed a crude ladder resting against the second story window of madame's house.

Madame's body was slumped between the bed and the wardrobe, her hands had been tied together and her skull had been crushed.

Police believe she was tortured in an effort to learn the hiding place of the fortune she was rumored to have hidden in the house.

### Housing for Snake Proves To Be an Exciting Problem

PHILADELPHIA. — "I'm seeing snakes," a man shouted to police over the telephone.

"It's at least 15 feet long and coiled on the window ledge," he persisted.

Patrolman Sigmund Weinberg went to see. Sure enough, there was the snake. But when it dropped to the sidewalk, Weinberg could measure only six feet.

"Now what are you going to do?" asked the pedestrian.

"Find the owner," said Weinberg.

At the first door, Weinberg tipped his hat and said, "I got a snake here."

Mrs. Israel fainted.

Weinberg went next door. Shrieks greeted his announcement there.

Then a man walked up and asked: "What's going on?"

Weinberg carefully put the box on the sidewalk, lifted the lid and pointed: "It's a snake."

"Oh, is that all. That's just an ordinary harmless blue racer. I'll be glad to take it off your hands," the man said.

"It's yours," said Weinberg.

### Breakable Target

A paper target with a printed bull's-eye is the best known rifle target, but most people like to see something happen when they hit a target—have it move or break. Breakable targets can be readily made by sawing a piece of 2" x 2" lumber into 2-inch lengths.

### Rayon Garments

Since water spots rayon, don't let rayon garments dry thoroughly and then sprinkle. Instead, roll the rayon garment in a towel to eliminate excess moisture; then hang on a hanger until dry enough to iron.

### Canada Grouse

Canada grouse differs from the ruffed grouse in having smaller crests on their heads, smaller air sacs on their necks, and shorter tails, which are square at the ends. The coloration is darker and they are somewhat smaller.

Ratification of "Declaration" Declaration of Independence was ratified at a convention at White Plains, N. Y., July 9, 1776.

### Good Posture

Good posture gives an impression of vitality and assurance.

### Commercial X-Rays

First commercial use of X-rays in the United States began in 1922 when, after a long period of development and research, X-ray transformers, controls and tubes reached a degree of perfection that made possible the use of relatively high voltages.

### First in Flour

Buffalo ranks first in the world in flour production and produces about one-third of all the linseed oil in the country.

### Pheasant Outflies Grouse

Once he gets up and straightens away, the pheasant flies faster than the grouse.

Range past its prime? Then now's the time...

## Get a Modern GAS Range!

If your range is beginning to show its age after long years of service, it's time to replace it with a modern GAS range. You'll find today's GAS ranges offer you everything you want in a cooking appliance. You can have automatic cooking... a dependable clock control turns the gas on and off and a whole meal cooks while you spend the afternoon out. Sleek new styling... automatic lighting of burners, oven, and broiler... new economy of operation... smokeless broiling... dependable baking... are all yours in the new GAS ranges. And remember, you're used to cooking with GAS. When it's time to replace... be sure to see the modern GAS ranges first.

Look for these aids to better cooking on the Modern GAS ranges:

- One-piece top... for easy cleaning.
- Variety of top burner arrangements.
- Utensil compartment and drawers.
- Automatic, self-lighting burners adjust to exactly the cooking speed you want.
- Electric clock keeps tab of the time for you.
- Smokeless, controlled flame broilers for the most satisfactory broiling you've ever experienced.

Stop in at your dealer's or our nearest store

PUBLIC SERVICE COMPANY OF NORTHERN ILLINOIS

## LAKE VILLA

"The Ten Talents" is the sermon topic announced by Rev. T. E. Rodd for the worship service at the Community Church next Sunday at 11 a. m. You are very welcome, and if you have small children, they will be cared for at the nursery down stairs.

Henry Bennecke is now church organist in place of Mrs. Gordon Martin, who resigned as organist, but is still director of the choir.

The regular church family night supper was held at the church on Wednesday evening this week, and following the supper, enjoyed the talk by Udo U. Ekam, Methodist layman from Nigeria in Africa. He told of his native country people and customs.

The girls' basketball team won the game they played with Zion last Thursday with a score of 18-9. On Thursday this week the girls play Waukegan girls at North Prairie. Mrs. Jack Koehler is the coach.

Walter Schneider and Thor Thorness left early last Sunday for Springfield to attend the inaugural ceremonies of Gov. Stephenson and other state officers. They also transacted business in Springfield and returned home Tuesday.

Mrs. Albert Kapple entertained the ladies of the Sewing club at a luncheon at her home last Thursday afternoon.

Mrs. Ruth Schumacher spent last Friday in Chicago. Her mother, Mrs. Church, has been confined to her home by illness during the past week, and her daughter has been caring for her.

Mrs. Grace Evans, of the Reynolds farm, spent Sunday and Monday with relatives at Hampshire, Ill.

Mrs. Marie Hamlin was a Waukegan shopper, last Saturday.

George Helm spent a few days last week in Champaign with his son, Clyde, and family.

Erwin Barnstable, Sr., is building a garage on his property on Burnett Ave.

Mrs. Daisy Riney returned home last week after a stay in Chicago and suburbs with her granddaughters and Mrs. Bob McElwein, her husband and son spent the day with her.

Mr. and Mrs. Leo Barnstable, Mr. and Mrs. Henry Cable, Mrs. Anne Nelson and Arthur Nelson spent Saturday evening with Mr. and Mrs. Clarence Blumenschein.

Miss Florence Paulsen, of Chicago, was a recent guest of Mr. and Mrs. Chris Anderson at their home on Burnett Ave.

Capt. Wm. Walker of the U. S. Army Air force, stationed in Enid, Okla., visited his parents, brothers and sisters at the Wm. Walker home last Saturday and Sunday. He, with others of the force made a trip to Chicago, so he took the opportunity to visit his family, so the family enjoyed a dinner at the parents' home on Sunday.

Andrew McGlashan was in Elmhurst a few days recently to visit his son, Andrew, and wife and family there.

The Cosmopolitans held their second annual Winter Wonderland Dance at the Lake Villa gym on New Year's Eve. It was a semi-formal affair. The gym was decorated with 200 evergreens which were flood-lighted from behind. The large center tree was decorated with blue lights and icicles.

The coronation began at 11 o'clock with a waltz by a few of the Cosmos. The king and queen, Carl Geng and

Joanne Midgley, were then crowned by the next highest members of the council, Jack Mahoney and Elaine Geng. The other members of the council are Bob Garver and Lorraine Bock.

The council is selected by a system of points. Points are given for attending Cosmo meetings, going to church two Sundays during a month, entering contests at Cosmo meetings, and other various things. The Cosmos having the largest number of points at the end of the year are king and queen. The next four highest are the secretary and the committee that grants points. These six persons are known as the council.

The command performances before the king and queen were executed by Miss Yvonne Peterson and some of her dancing pupils. A Viennese waltz then followed. The gowns of the girls who were participating were made with satin bodices and very full tarlatan skirts and were of various pastel colors. The refreshments were sherbet, punch and cookies.

The Cosmopolitans would like to thank the patrons for their fine cooperation.

At the January meeting of the Cosmos, the first honorary members were named. They are Mr. and Mrs. Tom Gillespie, Mr. and Mrs. Don Summers and Miss Yvonne Peterson. Honorary members are adults who give unusual interest or contributions to the Club.

## Barley First Food

In ancient Greece it was traditionally believed that barley was the first form of food given to mankind by the gods, and most botanists and geologists seem to agree that barley was one of the first plants to be cultivated. In the valley of the Tigris and Euphrates and the Nile ancient straw-lined barley storage pits have been found by archeologists who have dated them tentatively about 20,000 years of age.

## Playground Color Scheme

A playground color scheme for children's playground equipment, which has been put into practice in Canada, is green and yellow. The explanation for this choice of color is that green is restful to children's eyes while the orange-yellow provides a quick vision contrast which indicates danger points. For this purpose, the advocates of this painting motif emphasize that yellow is the most highly visible of all colors.

## What 'Pressing' Means

The term "pressing" means setting the iron directly down upon fabric and lifting it directly up without to and fro action. Woolens should always be pressed to avoid ruining the shape of the garment and the surface finish of the material. Likewise, laces, nets and other delicate materials should be pressed to avoid tearing the material.

## Removing Onion Odors

A little dry mustard or salt rubbed on the hands and then rinsed off will remove onion odors. To remove onion or fish odors from pans in which those and other odiferous foods have been cooked, wash the pans in hot soapy water to which one or two tablespoons of vinegar have been added.

## Poultry Pasture

Grass for poultry pasture should be short—so clip it three or four times a year.

## HEALTH HINTS for LIVESTOCK

PREPARED BY AMERICAN FOUNDATION FOR ANIMAL HEALTH

## WARNING AGAINST ANTHRAX 'SCARES'

Of all the diseases affecting livestock and human beings, one of the oldest and most deadly is anthrax. It spreads fast, kills fast, and sometimes causes disastrous losses. The spores of anthrax live in the soil, surviving for years under the worst conditions.

A cow killed by anthrax.

Nevertheless, anthrax "scares" and indiscriminate vaccination should be avoided. Outbreaks have been reported in almost every state at various times, but the disease is a constant hazard in only a few well-defined regions.

If an anthrax outbreak occurs in a new area, livestock owners should co-operate fully and promptly with local veterinarians and livestock sanitary officials. Except in established anthrax areas, an outbreak usually can be controlled by vaccinating stock on the infected premises and adjacent farms.

One of the common and serious mistakes, in handling new outbreaks, is the indiscriminate vaccination of cattle, horses and mules outside the actual danger zone. This practice may serve to start fresh outbreaks.

In all cases, one precaution is vital. Carcasses of anthrax victims must be disposed of, quickly and thoroughly, by complete burning. And the persons doing the job should use every precaution to avoid exposure. Human beings can readily contract anthrax by careless handling of sick or dead animals.

When a suspected or known case of anthrax appears the first thing to do is to call the veterinarian. He can examine the animal or dead animal, determine whether anthrax was the cause of trouble, and prescribe measures to check the outbreak before it causes widespread losses.

## Save Ironing

Save extra work in ironing by folding straight pieces of the family wash as they come from the line and placing them flat and smooth in the basket to keep them as unwrinkled as possible.

## Smooth Ice Cream

Ice crystals in ice cream can be reduced by fast freezing, stirring or agitation, adding air by beating or by adding whipped egg whites, whipped cream or gelatin.

**Facts About Lice**  
Animal lice are of two kinds, biting lice and sucking lice. Biting lice are sometimes called bird lice. Cattle lice are also of two kinds, biting and sucking.

**Peeling Tomatoes**  
To peel cold ripe tomatoes, take a paring knife and rub the whole tomato with the back of the knife, then peel. This eliminates the necessity of scalding.

New Chevrolet for '49  
Tested and Proved...

on the world's toughest Proving Ground

ITS ECONOMY WAS PROVED HERE

ITS RIDING COMFORT WAS PROVED HERE

ITS DURABILITY WAS PROVED HERE

ITS RELIABILITY WAS PROVED HERE

ITS SPEED WAS PROVED HERE

ITS STABILITY WAS PROVED HERE

ITS IMPROVED PERFORMANCE WAS MEASURED HERE

ITS DURABILITY WAS CHECKED HERE

ITS VISIBILITY WAS PROVED HERE

ITS POWER WAS PROVED HERE

WHEN you see the 1949 Chevrolets, a glance will be enough to tell you they're new—all new—in line and contour, in beauty and style. And when you look inside, and under the hood, and beneath the chassis, you'll see that their newness is not merely in outward appearance, but in design and engineering and construction as well.

But, to a lot of people, the 1949 Chevrolet is already old. They know what it will do, and how exceedingly well it will do it—they know all about its performance, its comfort, its power, safety, durability and

economy. They are the engineers and technicians of the General Motors Proving Ground—the largest, most completely equipped, outdoor testing laboratory in the automobile world.

Here, before a single new 1949 Chevro-

let went into production, experimental models were tested—made to show that they possess, in greater measure than ever, all those qualities on which Chevrolet has built its leadership.

In short, the General Motors Proving Ground tests are your assurance that your new-model Chevrolet has proved its worth through many months and many, many thousands of miles of rough handling.

Soon you will see the new Chevrolet—and when you do, you will see a car not only new, but tried and true.

## ADVERTISEMENT

MANY BENEFITS OF JOHNS-MANVILLE HOME INSULATION

After 20 years experience blowing Johns-Manville Rock Wool Home Insulation into the sidewalls and attics of buildings, we must all agree that the benefits of an insulated home are outstanding. Just looking at the roof of an uninsulated house is enough to convince anyone. Notice how quickly the snow melts off. That is heat loss passing through your ceiling. Other benefits of Johns-Manville "Blown In" Insulation include greater comfort by making the walls and window surfaces warmer, reducing drafts, and making heat more uniform; cooler house in summer, and money saved by reducing fuel cost up to 40%; an insulated house means less load on your heating equipment, or even a smaller heating system. Also, walls and ceilings are cleaner because dust and dirt do not gather on warm surfaces as they do on cold walls.

Johns-Manville insulation will not attract insects and mice and it is fire proof, will not absorb moisture and get soggy and will not deteriorate or settle. There is a big difference in rock wools. Be sure you get Johns-Manville. Free estimates, write Ernest C. Andreas, Dist. Mgr., Mundelein, Ill., Phone 622-W-2 or Lake Villa 3625.

## Public Notice

Notice of Proposed Change in Schedule G-6

The Public Service Company of Northern Illinois hereby gives notice to the public that it has filed with the Illinois Commerce Commission on January 3, 1949, the following proposed changes in its gas rate schedule:

1. A list of communities supplied gas service, revised to indicate those communities recently converted from mixed gas to natural gas or recently incorporated.  
2. Rate 37, Industrial Volume Gas Service—Off-Peak. Gas is served under this rate to certain large industrial customers who use some other form of fuel during the peak period which includes the winter months. It is being refilled so as to eliminate the possibility of gas being used for space heating during the peak period and to limit the use of gas for such purposes during the off-peak period. Other changes are designed to conform the use of gas under this rate with the Company's present load conditions.  
3. Rider 2, Gas Main Extension. This rider is refilled to make effective its refund provision for gas main extensions in the future, where an advance deposit is required, in accordance with a proviso contained in Rules 21 and 22 of the Commission's General Order No. 159.

Further information may be obtained with respect thereto either directly from this Company or by addressing the Secretary of the Illinois Commerce Commission at Springfield, Illinois.

A copy of the proposed changes in the schedule may be inspected by any interested party at any business office of this Company.

PUBLIC SERVICE COMPANY of Northern Illinois  
By C. G. Benneit  
Vice President (24-25)

Inspection of Homes  
Homes should occasionally be inspected for fire hazards. Often, unsuspected defects in heating systems or chimneys may be located and removed before fires result from them.
